

NEON SIDE VIEW LED STRIP

Neon Side View LED Strip combines modern design and uniform light distribution. Suitable for a variety of applications including building outline, indoor and outdoor decorative lighting. Made from environmentally friendly durable and UV resistant silicone material.

FEATURES AND BENEFITS:

- Silicone extrusion process with IP67 for durability
- Uniform light distribution, shadowless effect
- CRI 90 as standard for better colour appearance
- Colour consistency with SDCM 2
- Excellent heat dissipation
- UV resistant
- Suitable for use around salt or chlorinated water
- Can be supplied in 25m reels or cut to size
- Comes with 2 clips per meter and end caps

APPLICATION:

- Indoor/Outdoor decorative lighting
- Architectural features
- Signage lighting

SPECIFICATION:

Item Code	STR101	STR102	STR103	STR104	STR105
Colour Temperature	2700K	3000K	4000K	6000K	RGB
Max. Power	12W				
Input	24V DC				
CRI	90	90	90	90	NA
Cutting increment	50mm	50mm	50mm	50mm	83mm
Size	W12mm x H17mm				
IP Rating	IP67				
Lumen Output	520lm	520lm	520lm	460lm	NA
Beam Angle	120°				
Lifetime (rated)	36,000Hrs to L70				
Warranty	5 years				

RECOMMENDED DRIVERS (IP67):

	Non-dimmable	0/1-10V, phase-dim / PWM / Potentiometer	DALI/Push dim
20W	ADR002	N/A	N/A
40W	ADR004	N/A	N/A
60W	ADR006	ADR006D	ADR006DA
100W	ADR008	ADR008D	ADR008DA
150W	ADR0010	ADR0010D	ADR0010DA
200W	ADR0012	ADR0012D	ADR0012DA

CONTROLS OPTIONS (FOR RGB STRIP):

RF CONTROLLERS

(min one receiver and one remote control required)

Item Code	Description
AREC001	RGB Receiver 3A x 3Ch (Max load 216W)
AREC002	RGB Receiver 5A x 4Ch (Max load 480W)
ACNT002	RGB Remote Control

WIFI CONTROLLERS

(min one receiver is required, control through Smart Life app on your phone or a tablet)

Item Code	Description
AREC002W	RGB Receiver 5A x 3Ch (Max load 240W)
